

Environment Setup To Practice With Bash Shell Scripting

- We need any OS (Linux/Unix/Mac)
- You can get those OS's
 - Directly Install Required OS on Your PC/Laptop
 - Get it from any Cloud
 - Use WSL and Deploy Required OS on Windows
 - We will see how to Deploy CentOS on Windows WSL
 - And enabling systemctl on CentOS of WSL

Learn How to Automate Repetitive Tasks with **Bash** Shell Scripting

Thank you
